

Table 1. IECAM Data. Availability of data types by year (updated: March 14, 2018)

Note: Using these tables, you can: (1) find which years' data are available for a given data type; (2) find which data types are available for a given year.

Note: These tables list data that are searchable by year. There are additional data in IECAM in static pages and reports.

Note: Data available by year may not be available at every geographic region for that year. (See separate table on geographic regions.)

Note: Data are typically available in the tables-only section of IECAM before they are available in the GIS map section.
