

## STARK COUNTY

Stark County is in the northwestern part of Illinois, with a population of 5,434. Stark County is home to people identifying themselves as non-Hispanic White (95.5%), Black (0.7%), or Hispanic/Latino (1.8%). According to the U.S. Census, 11.5% of residents live at or below the federal poverty level (FPL), compared with the state rate of 13%. The median household income is \$52,058, compared with the state level of \$59,196.

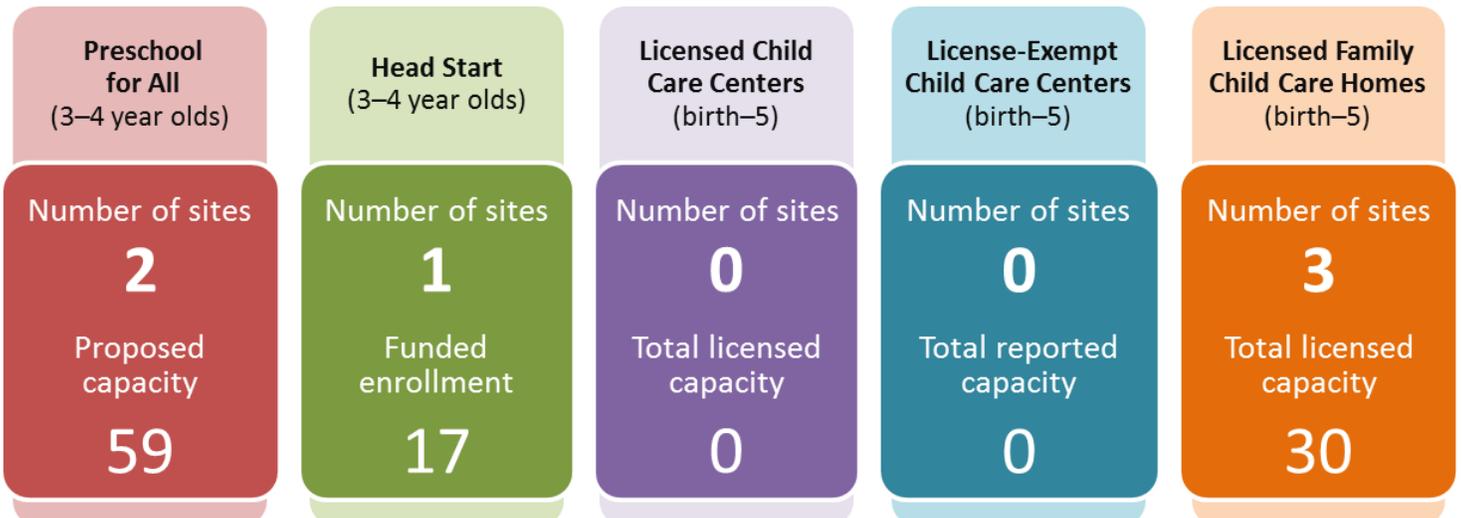

For this resource, IECAM used the U.S. Census Bureau's QuickFacts, which compiles demographic statistics based on various data programs (e.g., Population Estimates Program, American Community Survey 5-year estimates). The data presented above was retrieved in July 2018 from [www.census.gov/quickfacts](http://www.census.gov/quickfacts).

Children under age 5 are 5.7% of the population of Stark County. Early care and education in the county are provided by Head Start, Preschool for All (PFA), and child care settings (licensed child care centers, licensed family child care homes, and license-exempt child care centers or homes).

The Illinois Early Intervention Program (funded by IDHS) provides services in the home to children with disabilities, birth to age 3. Preschoolers with special needs (ages 3–5) may be served in PFA sites, Head Start programs, child care settings, early childhood special education classrooms, or the home.

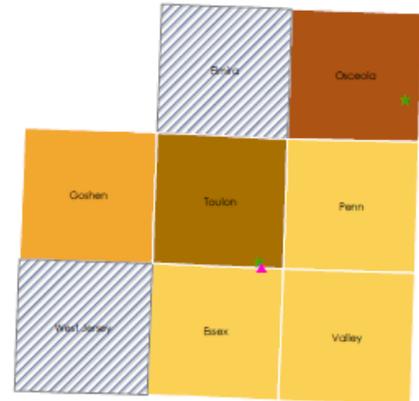

IECAM Early Childhood Data: FY2018

## Publicly Funded Preschool in Stark County

According to population estimates reported on IECAM (2015 census estimates), **51.69%** of 3- and 4-year-old children in Stark County are living in families at or below 185% FPL (first PFA priority level).

The map (top right) shows the distribution of **publicly funded preschool** sites in Stark County (divided into townships). The color ramp (in the legend) indicates the percentage of 3- and 4-year-old children who live in households with an income at or below 185% FPL. Note that those townships in the darker shades of brown reveal a higher percentage of poverty. The map highlights the importance of locating PFA and Head Start sites in areas of highest need. The gray striped areas have no children living in households at or below 185% FPL.

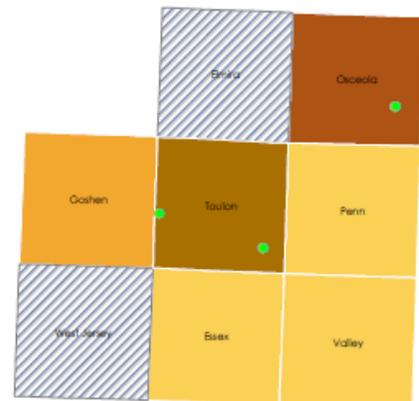

Percent of 3 and 4 year-old children living in families at or below 185%

## Child Care in Stark County

The map (bottom right) shows the distribution of **child care settings** superimposed on the county (divided into townships). Note that the green dots represent family child care homes. Many children from low-income families are cared for in family child care homes all over the county.
